

Rendevor
DIALYSIS

On-site Dialysis for Skilled Nursing Facilities

On-site Dialysis is now the expectation among patients, providers, and referral sources. With our legacy in B2B renal care innovation, Rendevor's on-site dialysis services are designed to optimize facility census, drive revenue and significantly enhance post-acute patient outcomes.

Partnering with Rendevor unlocks a host of benefits for your facility, residents and community:

Optimized SNF Financial Performance while Improving Patient Experience:

Maximize occupancy, improve reimbursement potential and reduce transportation costs.

Improved Patient Experience:

Provide on-site dialysis in a familiar, supportive, "home" environment, enhancing comfort and overall well-being.

Enhanced Health Outcomes:

On-site dialysis (3 or 5 days/week) promotes treatment adherence, reduces re-hospitalizations and infection risks, and minimizes missed treatments.

Eliminate Off-site Transportation:

Eliminate steep costs and safety risks associated with transporting medically-complex patients.

In-person Engagement:

- Clinical
- Logistical & Biomedical
- Marketing & Co-marketing
- Corporate Leadership

In-person Reporting:

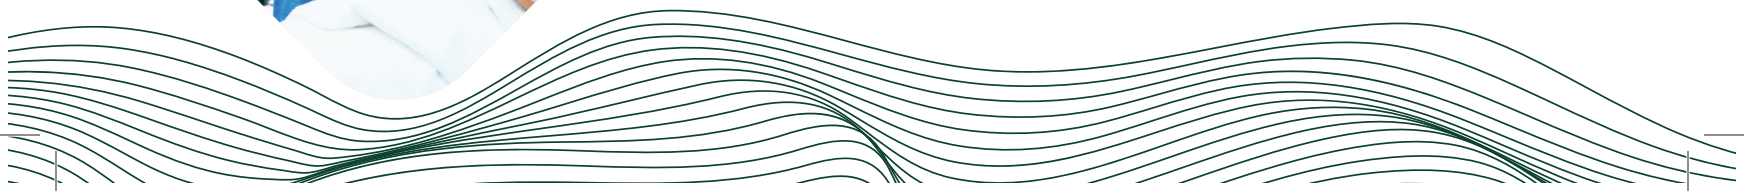

- Monthly & Quarterly
- Referral Conversion
- QAPI
- Utilization Rate

Care Continuum:

- Strengthen relationships with discharge planners, nephrologists, and SNF medical director through seamless care transitions.
- Reduce stress for patients and families making a choice for loved ones.

Leveraging AI for Predictive and Personalized Care:

Prevent avoidable rehospitalizations.

Why Choose Rendevor Dialysis for your On-site Post-Acute Partnership?

WE SUPPLY ACCESS WHERE IT IS NEEDED MOST, BRINGING SERVICES TO INSTITUTIONS THAT MAY OTHERWISE BE LEFT WITHOUT.

Our B2B-only focus allows us to be more flexible, transparent and drive collaboration. We'll customize an on-premise dialysis program to your space, your systems, your software -- your clinical environment's capabilities and constraints. Our success is only through your success; measurable census growth and positive patient outcomes.

MEET OUR TEAM AND LET RENDEVOR RISE TO THE CHALLENGE.

Our veteran professionals bring expertise and empathy to ensure an affordable and sustainable program can be built. We understand SNF dynamics and will step in, and step up, in a way other providers haven't.

Founded by a dialysis nurse, our 30-year legacy has set the standard for how a dialysis provider should interact with and support healthcare institutions. Rendevor is transforming post-acute renal care by making on-site dialysis accessible and efficient for SNFs.

TURNKEY SERVICES THAT DRIVE CENSUS INCLUDE:

Labor: Clinical teams to administer treatment + Managerial Oversight

State-of-the-art Equipment + Supplies

Biomedical Maintenance and Repairs

Nephrologist/Medical Director Oversight

Robust Quality Management Program for rigorous safety and compliance

AI for Predictive and Proactive Care
